Table des matières

1 Dependencies Management	1
1.1 Approved Dependencies	1
1.2 Version Management	1
1.3 Security Requirements	1
1.4 Template Validation	1

1 Dependencies Management

i Template Usage

1. List approved dependencies
2. Define version constraints
3. Document update procedures

1.1 Approved Dependencies

```
production:
- name: "[LIBRARY]"
  version: "[VERSION]"
  purpose: "[DESCRIPTION]"
  alternatives: "[ALTERNATIVES]"

development:
- name: "[TOOL]"
  version: "[VERSION]"
  purpose: "[DESCRIPTION]"
```

1.2 Version Management

- Lock file: [FILENAME]
- Update frequency: [SCHEDULE]

- Version constraints:

```
[PACKAGE]: [CONSTRAINT]
[PACKAGE]: [CONSTRAINT]
```

1.3 Security Requirements

- Vulnerability scanning: [TOOL]
- Audit schedule: [FREQUENCY]
- Block list: [PACKAGES]

1.4 Template Validation

- ☐ Dependencies documented
- ☐ Versions specified
- ☐ Security rules defined
- ☐ Update process documented
